

SWASA Carbon Mask

SWASA®
Breathe clean air

99.9% PROTECTION FROM

Virus

Bacteria

Pollen

DUST

HAZE

SMOKE

Features

Product Code	Carbon coated	
Product Application	Filtration: Respirator & Face Mask	
Material	Polyester Fiber	
Process	Thermal Bond	
Area Weight (ASTM D 6242)	g/m ²	40
Thickness (Internal Method)	MM	0.2
Air Permeability (ASTM D 737 @ 200Pa)	Lit/dm ² /min	1100
Carbon Add on	gm/mt ²	6
Adsorption Capacity	mg/mt ²	7000
Special Features	<ol style="list-style-type: none"> 1. Developed through Eco Friendly Nonwoven Manufacturing technology 2. Very High Micro Porous Internal Surface Area 3. Light Weight Media with High Adsorption capacity. 4. Adsorb Gases like SO₂, NO₂, n Butane, Toluene and VOC's 5. Dust free media 6. Super Active Carbon Technology to protect from breathing smell/odour 	
Contains	1 Mask in 1 Pouch
